How to Find Y-Class Airfare Comparisons Using ITA Matrix

Purpose
ITA Matrix provides a simple way to find Y-Class airfare comparisons without requesting fare information from a travel agent. It can also be used to generate a PDF record of the selected fare.

Link: https://matrix.itasoftware.com/search

Instructions

1. Go to **ITA Matrix:** matrix.itasoftware.com
2. Click **Show Advanced Controls**.
3. Locate the **Extension Codes** field.
4. Enter the following code exactly:
   F bc=y
5. Enter your flight details, including origin, destination and travel dates.
6. Click **Search**. The results will show Y-Class flights available for the selected dates and itinerary.
7. Select the desired flight to view the detailed itinerary and fare information.
8. **Print or save the detailed results as a PDF** for your travel documentation.

Tip
ITA Matrix can be particularly useful when an airline website does not clearly display Y-Class fare information.
